-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Art Unit: 3654

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

Claims 2-3 are rejected under 35 U.S.C. 103(a) as being unpatentable over Morita et al (US 6236539).

Note lock members 540 where the angle appears to meet claim 3. Note also that Morita et al states "a holding portion 540a similar to that 30b of the first embodiment" (col. 12, lines 16-17); the first embodiment being shown at least in Fig. 4. To make the members extend from a mounting portion as shown in fig. 4 would have been an obvious matter of design choice to a person having ordinary skill in the art based on factors such as preference, design criteria, space optimization, and costs (as in reducing the number of parts).

Applicant's arguments filed 10/14/04 have been fully considered but they are not persuasive.

The above rejection sets forth that it would have been obvious to one of ordinary skill in the art to make the two holding portions 540a extend from one mounting portion such as the mounting portion 30c shown in fig. 4, especially since Morita et al states "a holding portion 540a similar to that 30b of the first embodiment" (col. 12, lines 16-17). This modification will, at the minimum, reduce the number of parts and therefore manufacturing costs involved in production and assembly when only one part is involved instead of two. The rejection never suggested changing to a "U-shaped

Art Unit: 3654

arrangement", but rather to make the holding portions 540a extend from one mounting portion while preserving the angular configuration of element 540.

The verified English translation of the priority document has been received; therefore the corresponding rejection is moot.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
